

Residential Development – South Street

Client: Mr. Perry

Location: Mayfair, London

The conversion and refurbishment of two houses into one luxury house.

These two houses are part of a terrace of five Grade II listed houses. Within these two houses the building contains various significant architectural features and listed elements including ceilings and staircase that were all protected during the works.

The new development included a passenger lift, short swimming pool with flow system, staff kitchen and accommodation and a roof terrace. All finished to a high standard.

CDM services covered the whole duration of the scheme.
